

Public Class Discount Program

updated Jan 2021

PROGRAM DESCRIPTION:

CPR LifeLine created this discount program for companies & organizations who want to register their employees & volunteers for CPR and/or First Aid classes on a regular basis throughout the year. The program enables groups to take advantage of quantity discounts when sending several people to our public classes with the convenience of making only one payment.

HOW IT WORKS & PRICES:

Your company/organization pre-purchases a minimum of 10 spots for a certain type of class at a discount and payment must be made by check (you may request an invoice). A promo code is issued for the quantity & type of class purchased to use for online registration. *A maximum of 4 people from one company can be registered for the same class date if they are on this discount program.* Student attendance is recorded and the training record can be requested at any time to confirm status. All Heartsaver classes include a book for each student and the BLS student manual is available for \$16ea for a print copy or \$14ea for an ebook. The promo code does *not expire but if the class fee increases after 90 days, we'll give as much notice as possible and a balance due may be required.*

Class Reschedule/Cancellation Policy:

- Cancellations received at least 7 days in advance of class may cancel completely or receive full credit to another class.
- Cancellations received less than 7 days in advance but at least 24 hours prior to class, may reschedule and use their credit for another class with a \$10 reschedule fee. One reschedule allowed.
- Cancellations received less than 24 hours prior to class and "no shows" at class will void the spot in class and no credit will be issued.
- Student substitutions are allowed.

Type of Course	Cost per person without discount	Cost per person with discount
AHA BLS Provider	\$65.00/person	\$58.50/person
