

VOUCHER PROGRAM

Quantity discount program for public classes.

updated 1/1/2020

PROGRAM DESCRIPTION:

CPR LifeLine created this discount program for groups who want to register their employees & volunteers for CPR and/or First Aid classes on a regular basis throughout the year. The program enables groups to take advantage of quantity discounts when sending several people to our public classes with the convenience of making only one payment.

HOW IT WORKS & PRICES:

Your organization pre-purchases a minimum of 10 vouchers for a certain type of class at a discount (~10% off) and payment must be made by check (you may request an invoice). A promo code is issued for the quantity & type of class purchased to use for online registration. *A maximum of 4 people from one company can be registered for the same class date if they are on this discount program.* Student attendance is recorded and the training record can be requested at any time to confirm status. All Heartsaver classes include a book for each student and the BLS student manual is available at \$16 each for a print copy or \$14.50 for an ebook. *Vouchers do not expire but if the class fee increases, we'll give as much notice as possible and a balance due may be required.*

Class Reschedule/Cancellation Policy:

- Cancellations received at least 7 days in advance of class may reuse the voucher for another class.
- Cancellations received less than 7 days in advance but at least 24 hours prior to class, may reschedule using the same voucher with a \$10 reschedule fee.
- Cancellations received less than 24 hours prior to class and "no shows" at class will void the voucher and a new voucher must be used to reschedule. Substitutions are allowed with notice.

Type of Course	Cost per person without discount	Cost per person with discount
AHA BLS Provider	\$65.00/person	\$58.50/person
AHA BLS Provider Skills (online not included)	\$45.00/person	\$40.50/person
